

36" x 6" Stainless Steel H-Style Burner - Natural Gas

Product ID: SS-H-36
Weight: 4.0000 lbs
Manufacturer: American Fire Glass

36" x 6" Stainless Steel H-Style Burner - Natural Gas

A get together with family and friends around a warm, cozy fireplace is just what is needed after a long, grueling week! The bright, cheerful fire will help to remove some of the stress and anxiety from those gathered around and stimulate some lighthearted conversation too. But in order to light up a truly memorable fire display, one has to have the right tools! Not to worry, with our elegant 36" x 6" H-burner (natural gas), your customers will be able to throw a get-together no one will soon forget!

Stylish, Efficient & Easy to Install

Our stylish 36" x 6" H-burners for natural gas aren't just pleasing to look at, but also extremely efficient flame producers. Resembling a piece of shining modern art, they are designed to fit perfectly within your customers' fireplace and deliver an impressive and evenly distributed flame in a straight line. Each H-burner comes with a 16 inch flex line and all the necessary fittings for convenient attachment to a natural gas supply. Installation requires just a few easy steps and no professional assistance is needed.

Extremely Durable & Long Lasting

Our 36" x 6" H-burners are constructed with high quality stainless steel which means they can withstand harsh weather and extreme temperatures without the slightest damage or discoloration. Your customers and their guests will be able to enjoy this amazing product for many years to come!

(Note: For best effect, use under 2 - 4 inches of fire glass!)
