Ohana™ — Prairies wall 52"

The Ohana's steel structure is entirely protected by a variety of finishes. These optimize its resistance to corrosion while preventing condensation between the liner and the wall – ensuring a long, solid life for your pool.

top ledge

- 7-inch (18 cm) top ledge
- Ledge cover made from Synpro™ resin
 - rounded corners and a design that hides screws
 - never chips or discolors

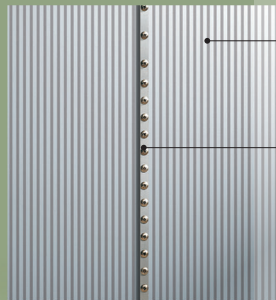

y.e.s.

Yard Extender System

Invisible lateral supports on oval pools. For anyone who wants to make the most of their yard – and their pool!

upright

- 5-inch (13 cm) fully supportive upright

corrugation

A rippled finish lets the wall resist both water pressure and external shocks.

wall joint

- Computer-designed wall joint ensures better resistance to water pressure
- Wall reinforced with steel bars
- Oversized bolts augment stability

water safety

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations.
