

RENOVATE

SPRAYABLE/ROLLABLE MICRO-TOPPING

BEFORE

DURING

AFTER

For restoring old, worn, stamped concrete or to change the color, mask repairs, or renovate any slab concrete surface. **RENOVATE** is an easy to use two part polymer-modified cementitious micro-topping that is easily applied using only a paint roller or a pump-up hand sprayer. **RENOVATE** can be integrally colored with THIN-CRETE COLOR PACKS or it can be stained with a variety of stains. For stamped concrete, this ultra thin coating retains the original texture and pattern, and a secondary highlight colorant ANTIQUING AGENT may be used. This tough, durable wear-bearing surface is stain resistant and easy to clean.

CUSTOMER SUPPORT

- Technical Support – Available for product selection, application questions.
- Product Assistance – Locate a contractor or distributor. Support literature and in-depth written application instructions.
- Field Specialists – Increte-trained field specialists provide consultations and recommendations.
- Design Consultation – Complete with showroom and training facility.
- Seminars – 2-day seminars include classroom instruction on project estimating, marketing and sales tactics to grow your business all year long with hands-on product training (available in Spanish). On-site distributor training and webinars by request are also available.
