Versatile, Assorted Weights and Flame Retardant Tarps, Poly Flashing and Reinforced Poly Sheeting

WE BUILD AMERICA®

## Poly Tarps

Grip-Rite tarps are available in the styles, colors and grades to suit a wide range of uses from jobsite to recreation. Get the job done right with Grip-Rite.

- All Grip-Rite tarps are made from woven, tear resistant high-density polyethylene and are coated on both sides for protection against moisture and mildew
- All edges are reinforced with rope and heat welded for resistance to wear and tear
- UV treated for prolonged outdoor use
- All Grip-Rite tarps feature totally rust free polycarbonate grommets that are welded directly to the hem resulting in reduced grommet stress and a longer useful life
- Attractive full color labeling virtually sells the tarp for you. Sizes and applications are clear and descriptive

### Available colors:

#### Heavy Duty

5 ft. x 7 ft. - Blue

**APPLICATIONS:**

- Dust Containment
- Insulation
- Painting
- Vapor Barrier
- Weather protection

**Poly Sheeting**

Complete interior and exterior project material protection from the brand you know and trust. Grip-Rite Poly Sheeting is available in multiple weights, thicknesses and sizes – from lightweight film and painter’s tape to poly flashing and reinforced poly. Grip-Rite offers versatile options to protect surfaces from paint, sawdust and airborne construction debris indoors or to create a barrier from the elements in the garden, a home improvement project or open-air construction site.

**Poly Flashing**

Provides a barrier against vapor and airborne particles.

- Provides tough protection from the elements
- Suitable for above and below grade applications

**Consumer Poly**

- Best-in-class, color-coded packaging eliminates mil thickness guesswork
- Available in a variety of popular sizes and thicknesses from light-duty protection to medium-duty excavation and gardening applications

**Reinforced Poly And Anchor Ties**

Grip-Rite string reinforced poly features woven reinforced bands with perforated eyelets that enable easy and secure fastening to scaffolding. Used in combination with Grip-Rite anchor ties, our enclosure system forms a reliable barrier between the jobsite and the elements.

**ANCHOR TIES**

- For securing reinforced poly to scaffolding
- For connecting sheets of reinforced poly
