

Finally, a valve actuator you can set with push-button ease.

The revolutionary IntelliValve Valve Actuator lets you set just the right flow for water features. Its intuitive controls and LED position indicator lights make operation fast and push-button easy. Thirteen bright LEDs provide a clear visual indication of the valve position, from fully open to fully closed and everywhere in between. Simply use the left/right and Save buttons to set the perfect flow rate in just seconds.

- A. Simple, easy-to-use interface for setting just the right amount of flow for two water features using a single pump.
- B. LED position indicator lights eliminate the hassle and guesswork common when setting up standard valve actuators.
- C. Sealed design ensures long life.

PRODUCT FEATURES

- **Thirteen LEDs.**
Precise, easy-to-read indication of valve position.
- **Built-in interface.**
Allows quick and simple setup of water flow.
- **Sleek, minimalist design.**
Compact and fits easily within any equipment pad.
- **Sealed, maintenance-free design.**
Weatherproofed for maximum reliability and extended service life.
- **Suitable for 1.5", 2", 2.5" and 3" valve sizes.**
- **24V operation.**
For use with standard automation systems.
- **750mA maximum amp draw.**
- **Adjustable.**
Adjustable in 3.75-degree increments within the maximum 180-degree swing.
