

Pace Clocks / Shot Clocks

Wireless Pro Pace Clock / Shot Clock (pictured)

Large 10" LED digits (red or amber) can be adjusted for indoor or outdoor use. Synchronize multiple clocks for use on deck.

Choose the functions you need:

Basic Pace Clock

All of these units can be run as standalone pace clocks, or set to run in a series of pace clocks with or without a timing console or controller. Every pace clock in a series displays the same information.

Shot Clock

Choose the Pro Pace Clock / Shot Clock, or the PC-PORTABLE version of the Basic Pace Clock for Water Polo Shot Clock functionality. Shot clocks must be connected to the timing console. Additional clocks can be added to display game time, time out time, and team scores.

Wireless Capability

Most versions of the Pace Clock / Shot Clocks are available with the ability to transmit and receive data wirelessly.

Special Training Modes and Display Options

The Pro Pace Clock / Shot Clock was designed with you and your athletes in mind, featuring 15 training modes to fine-tune skills and create customized workouts. It can also show a variety of display options. The Pro Pace Clock can be used either with or without a timing console or controller.
