

## Safety Data Sheet 0-0-22

### SECTION 1: Identification

#### 1.1 Product identifier

|                |          |
|----------------|----------|
| Product name   | 0-0-22   |
| Product number | R802985A |
| Brand          | Nutrite  |

#### 1.2 Other means of identification

Granular fertilizer

#### 1.3 Recommended use of the chemical and restrictions on use

For turf fertilizer applications. See product label for application instructions.

#### 1.4 Supplier's details

|         |  |
|---------|--|
| Name    | Ferti Technologies                             |
| Address | 155 East Street<br>Wallingford CT 06492<br>USA |

|           |              |
|-----------|--------------|
| Telephone | 203-265-0500 |
|-----------|--------------|

#### 1.5 Emergency phone number(s)

USA National Capital Poison Center: 1 800 222 1222

### SECTION 2: Hazard identification

#### General hazard statement

Avoid creating dust when handling, using or storing. Use outdoors or in well ventilated area to avoid exposure to dust.

#### 2.1 Classification of the substance or mixture

**GHS classification in accordance with: OSHA (29 CFR 1910.1200)**

- Serious eye damage/eye irritation, Cat. 2B

#### 2.2 GHS label elements, including precautionary statements

**Pictogram**

# Safety Data Sheet

## 0-0-22

### Signal word

**Warning**

### Hazard statement(s)

H320

Causes eye irritation

### Precautionary statement(s)

P264

P305+P351+P338

P337+P313

Wash hands thoroughly after handling.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

### 2.3 Other hazards which do not result in classification

No data available

## SECTION 3: Composition/information on ingredients

### 3.2 Mixtures

This Safety Data Sheet is not a guarantee of product specification or NPK value(s).

#### Hazardous components

| Component  | Concentration        |
|--|----------------------|
| Sodium chloride (CAS no.: 7647-14-5; EC no.: 425-740-5; Index no.: 611-142-00-3) | 0.5 - 2 % (weight)   |
| potassium magnesium sulfate (langbeinite) (CAS no.: 14977-37-8)                  | 95 - 99.5 % (weight) |

#### Trade secret statement (OSHA 1910.1200(i))

\*The specific chemical identities and/or actual concentrations or actual concentration ranges for one or more listed components are being withheld as trade secrets under the US regulation 29 CFR 1910.1200(i).

Note: The balance of the ingredients are not classified as hazardous or are below the concentration limit to be classified as hazardous, under the criteria of the Federal OSHA Hazard Communication Standard 29CFR 1910.1200.

## SECTION 4: First-aid measures

### 4.1 Description of necessary first-aid measures

|                         |   |
|-------------------------|---|
| General advice          | Consult a physician. Show this safety data sheet to the doctor in attendance.   |
| If inhaled              | Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Use oxygen as required, provided by a qualified operator. Get medical attention if irritation develops and persists |
| In case of skin contact | Wash off immediately with plenty of water for at least 15 minutes. Take off contaminated clothing and shoes immediately. Wash contaminated clothing before re-use. Get medical attention if irritation develops and persists.   |
| In case of eye contact  | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention if irritation develops and persists.   |
| If swallowed            | Call a poison center or doctor if you feel unwell. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Do NOT induce   |

# Safety Data Sheet

## 0-0-22

vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person

### 4.2 Most important symptoms/effects, acute and delayed

INHALATION: May cause respiratory irritation.

SKIN: Skin irritation

EYES: Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

INGESTION: May cause discomfort if swallowed. May be harmful if swallowed in large quantities.

### 4.3 Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician: Treat symptomatically.

## SECTION 5: Fire-fighting measures

### 5.1 Suitable extinguishing media

Use extinguishing agent suitable for type of surrounding fire. Avoid excessive water to minimize runoff. Prevent firefighter water from entering the environment.

Small fires: Water spray, foam, dry chemical or CO<sub>2</sub>

Large fires: Water spray, fog or foam.

### 5.2 Specific hazards arising from the chemical

Container may rupture on heating. Cool closed containers exposed to fire with water spray. Do not allow run-off from firefighting to enter drains or water courses. Explosive reactions with oxidizing agents such as potassium chlorate and/or peroxides. In case of fire hazardous decomposition products may be produced such as:

Ammonia

Carbon monoxide

Carbon dioxide (CO<sub>2</sub>)

### 5.3 Special protective actions for fire-fighters

In the event of fire and/or explosion do not breathe fumes. In the case of respirable dust and/or fumes, use self-contained breathing apparatus and dust impervious protective suit.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Wear personal protective equipment. Unprotected persons must be kept away. Evacuate personnel to safe areas. Provide adequate ventilation. Avoid dust formation. Avoid breathing dust.

### 6.2 Environmental precautions

Fertilizers will dissolve and disperse in water and promote algae growth, Notify downstream water users of any release that may affect water quality

### 6.3 Methods and materials for containment and cleaning up

Do not flush into surface water or sanitary sewer system. Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Clean contaminated surface thoroughly. Pick up and arrange disposal without creating dust. Use a suitable vacuum cleaner.

## SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

Keep containers tightly closed in a dry, cool and well-ventilated place. Containers should be protected against falling down. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store away from incompatible substances. Avoid generation and spreading of dust.

# Safety Data Sheet

## 0-0-22

### 7.2 Conditions for safe storage, including any incompatibilities

Keep containers tightly closed in a dry, cool and well-ventilated place. Containers should be protected against falling down. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store away from incompatible substances. Avoid generation and spreading of dust.

## SECTION 8: Exposure controls/personal protection

### 8.2 Appropriate engineering controls

Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits.

### 8.3 Individual protection measures, such as personal protective equipment (PPE)

#### Eye/face protection

Wear as appropriate: Safety glasses with side-shields

#### Skin protection

Gloves: Gloves must be inspected prior to use. Replace when worn  
Wash hands before breaks and at the end of workday.

#### Body protection

Wear appropriate protective clothing to prevent skin exposure.  
Remove and wash contaminated clothing before re-use. Wash working clothes separately.

#### Respiratory protection

A NIOSH approved air purifying respirator with a type 95 (R or P) particulate filter may be used under conditions where airborne concentrations are expected to exceed exposure limits or respiratory irritation is experienced. Protection provided by air purifying respirators is limited (see manufacturer's respirator selection guide). A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed if workplace conditions warrant a respirator use.

## SECTION 9: Physical and chemical properties

### Information on basic physical and chemical properties

|   |                                  |
|---|----------------------------------|
| Appearance/form (physical state, color, etc.) | Solid Granules white, gray, pink |
| Odor  | No data available.               |
| Odor threshold                                | No data available.               |
| pH  | 7 - 5% solution                  |
| Melting point/freezing point                  | No data available.               |
| Initial boiling point and boiling range       | No data available.               |
| Flash point                                   | No data available.               |
| Evaporation rate                              | No data available.               |
| Flammability (solid, gas)                     | No data available.               |
| Upper/lower flammability limits               | No data available.               |
| Upper/lower explosive limits                  | No data available.               |
| Vapor pressure                                | No data available.               |
| Vapor density                                 | No data available.               |
| Relative density                              | No data available.               |
| Solubility(ies)                               | No data available.               |
| Partition coefficient: n-octanol/water        | No data available.               |
| Auto-ignition temperature                     | No data available.               |
| Decomposition temperature                     | No data available.               |
| Viscosity                                     | No data available.               |

# Safety Data Sheet

## 0-0-22

Explosive properties  
Oxidizing properties

No data available.  
No data available.

### Other safety information

Bulk Density: 83 lbs/ cubed foot

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

Stable under recommended storage and use conditions. Some components may react if exposed to incompatible materials.

### 10.2 Chemical stability

Stable under recommended storage conditions.

### 10.3 Possibility of hazardous reactions

Hazardous polymerization does not occur.

### 10.4 Conditions to avoid

Contact with incompatible materials. Contact with open flames, heat, or sparks

### 10.5 Incompatible materials

Contact with powerful oxidizing agents such as fluorine, boron trifluoride, chlorine trifluoride, manganese trifluoride, and oxygen difluoride may cause fire and/or explosions.

### 10.6 Hazardous decomposition products

The decomposition of fertilizer products may result in the generation of some or all of the following: ammonia, formaldehyde, biuret, chlorine, cyanic acid, and cyanide, and oxides of carbon, nitrogen, phosphorus, potassium, sulfur, and chlorine, and oxides of alkaline earth metals, and certain heavier metals used as nutrients in fertilizer products, such as copper, iron, manganese, and zinc, and other irritating and toxic fumes and gases.

## SECTION 11: Toxicological information

### Information on toxicological effects

#### Acute toxicity

No data available.

#### Skin corrosion/irritation

Irritating to skin. Signs/symptoms may include localized redness, swelling, and itching.

#### Serious eye damage/irritation

Causes eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.

#### Respiratory or skin sensitization

May cause respiratory irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled

#### Germ cell mutagenicity

No data available

#### Carcinogenicity

Not applicable

#### Reproductive toxicity

No data available

# Safety Data Sheet

## 0-0-22

### STOT-single exposure

May cause respiratory irritation.

### STOT-repeated exposure

May cause damage to organs through prolonged or repeated exposure

### Aspiration hazard

No data available.

## SECTION 12: Ecological information

### Toxicity

No data available.

### Persistence and degradability

No data available

### Bioaccumulative potential

Not expected to bioconcentrate or bioaccumulate.

### Mobility in soil

This product is water soluble and may disperse in soil

### Results of PBT and vPvB assessment

No data available.

### Other adverse effects

May be toxic to aquatic life. In sufficient quantity may deplete oxygen required by aquatic life. May cause eutrophication of ponds and lakes.

## SECTION 13: Disposal considerations

### Disposal of the product

Dispose in accordance with all applicable regulations. Recover or recycle if possible. Properly characterize all waste materials.

### Disposal of contaminated packaging

Empty containers should be taken to an approved waste handling site for recycling or disposal.

### Waste treatment

Consult federal, state/provincial and local regulations regarding the proper disposal of this material.

### Sewage disposal

Prevent material from entering sewers, storm drains, other unauthorized treatment drainage systems, and natural waterways.

## SECTION 14: Transport information

|                                 |      |
|---------------------------------|------|
| 14.1 UN Number                  | None |
| 14.2 UN Proper Shipping Name    | None |
| 14.3 Transport hazard class(es) | None |
| 14.4 Packing group              | None |
| 14.5 Environmental hazards      | None |

# Safety Data Sheet

## 0-0-22

- 14.6 Special precautions for user None
- 14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code None

### SECTION 15: Regulatory information

#### 15.1 Safety, health and environmental regulations specific for the product in question

##### **SARA 302 Components**

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

##### **SARA 311/312 Hazards**

No SARA Hazards

##### **SARA 313 Components**

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

##### **Toxic Substances Control Act (TSCA) Inventory**

Components listed

### SECTION 16: Other information

This safety data sheet was developed from safety data sheets of suppliers of the constituent materials identified herein and does not relate to the use of such materials in combination with any other material or beyond its intended use. This information is based on our present knowledge and is provided according to the relevant national regulations.

#### 16.1 Further information/disclaimer

This information is intended as a characterization of the product in order to provide guidance for the relevant safety issues. However, this document does not provide any warranty, expressed or implied, regarding the properties of the product. No warranty is expressed or implied with respect to the completeness or ongoing accuracy of the information contained in this data sheet, and Ferti Technologies. disclaims all liability for reliance on such information. This data sheet is not a guarantee of safety. Users are responsible for ensuring that they have all current information necessary to safely use the product described by this data sheet for their specific purposes.

#### 16.2 Preparation information

The classification of the mixture was set based on the regulation (US) HazCom 1910.1200 [HCS 2012].
