# HAVILAND CONSUMER PRODUCTS, INC SAFETY DATA SHEET

# Section 1: Identification

Product Name: Haviland Bag pH Plus Product Code: C007263 Haviland Consumer Products, Inc. E 421 Ann Street NW C Grand Rapids, MI 49504 C (616) 361-6691

Emergency Phone CHEMTREC (800) 424-9300 CHEMTREC International (703) 527-3887

Product Use: NA Not recommended for: NA

Section 2: Hazard(s) Identification							
GHS Ratings:							
Eye corrosive	2A	Eye irritant: Subcategory	/ 2A, Reversible in 21 days				
GHS Hazards		GHS Precautions					
H319	Causes serious eye irritation	P264	Wash face, hands, and any exposed skin thoroughly after handling				
		P280	Wear protective gloves/protective clothing/eye protection/face protection				
		P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to				
		P337+P313	do – continue rinsing If eye irritation persists get medical advice/attention				

Warning

Section 3: Composition/Information on Ingredients					
Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits		
Disodium carbonate					
497-19-8					
90 to 100%					

## Section 4: First-aid Measures

### Inhalation

Rescuers should put on appropriate protective gear. Remove from area of exposure. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Keep victim warm. Get immediate medical attention. To prevent aspiration, keep head below knees.

## Eye Contact

Immediately flush eyes with water. Flush eyes with water for a minimum of 15 minutes, occasionally lifting and lowering upper lids. Get medical attention promptly.

#### Skin Contact

Remove contaminated clothing. Wash skin with soap and water. Get medical attention. Wash clothing separately and clean shoes before reuse.

#### Ingestion

If swallowed, do NOT induce vomiting. Give victim a glass of water. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.

## Section 5: Fire-fighting Measures

#### **Extinguishing Media**

Water, water fog, CO2, dry chemical

## Specific Hazards Arising from the Chemical

## Hazardous combustion products:

Fumes of Sodium Oxide

#### Special Protective Equipment and Precautions for Firefighters

Special Information: As in any fire, wear self-contained breathing apparatus pressure-demand (MSHA/NIOSH approved or equivalent) and full protective gear.

#### Section 6: Accidental Release Measures

#### Personal precautions

Avoid dust formation. Sweep up to prevent slipping hazard.

# Methods for containment

Prevent large quantities of this product from contacting vegetation or waterways. Cover with plastic sheet to prevent spreading Pick up and transfer to properly labeled containers Keep in suitable and

## closed containers for disposal

## Methods for cleaning up

Sweep or vacuum up spillage and return to container. Pick up and transfer to properly labeled containers. Keep in suitable and closed containers for disposal.

#### Section 7: Handling and Storage

HANDLING: Use only in a well ventilated area. Avoid breathing vapor, fumes or mist. Avoid contact with eyes, skin, and clothing. Ground and bond containers when transferring material. Always open containers slowly to allow any excess pressure to vent. Follow all MSDS/label precautions even after containers are emptied because they may retain product residues.

**STORAGE:** Keep away from heat, sparks, and flame. Store containers in a cool, well ventilated place. Keep container closed when not in use. Protect from direct sunlight.

Section 8: Exposure Control/Personal Protection					
Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits		
Disodium carbonate					
497-19-8					

**RESPIRATORY PROTECTION:** A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant the use of a respirator.

SKIN PROTECTION: Wear impervious protective gloves. Wear protective gear as needed - apron, suit, boots.

EYE PROTECTION: Wear safety glasses with side shields (or goggles) and a face shield.

**OTHER PROTECTIVE EQUIPMENT**: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

**HYGENIC PRACTICES:** Do not eat, drink, or smoke in areas where this material is used. Avoid breathing vapors. Remove contaminated clothing and wash before reuse. Wash thoroughly after handling. Wash hands before eating.

## Section 9: Physical and Chemical Properties

Freezing point: Unknown Boiling range: Decomposes Evaporation rate: Unknown Explosive Limits: Unknown Autoignition temperature: Unknown Viscosity: Unknown Appearance: White granular Vapor Pressure: Unknown Vapor Density: Unknown Density: Unknown Solubility: 33.2% Maximum Flash point: Unknown Flammability: Unknown Specific Gravity Unknown Decomposition temperature: Unknown Grams VOC less water: Unknown Odor: odorless Odor threshold: Unknown pH: 11.4 (1%solution) Melting point: 851°C

Section 10: Stability and Reactivity

Chemical Stability: STABLE

Incompatible Materials Aluminum powder, acids, fluorine, molten lithium Conditions to Avoid Unknown Hazardous Decomposition Products Heated to decomposition, it emits fumes of sodium oxide.

**Hazardous Polymerization** 

Hazardous polymerization will not occur.

Section 11: Toxicology Information

# **Mixture Toxicity**

Oral Toxicity LD50: 4,090mg/kg Dermal Toxicity LD50: 2,210mg/kg Inhalation Toxicity LC50: 2mg/L

Routes of Entry: Inhalation Ingestion Skin contact Eye contact

# Effects of Overexposure

Emergency Overview Harmful if swallowed. May cause skin and eye irritation. Acute Health Effects Contact with eyes or skin may result in irritation. Ingestion may result in gastric disturbances. Inhalation may irritate the respiratory tract.

CAS Number	Description	<u>% Weight</u>	Carcinogen Rating

## Disclaimer

The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
