SAFETY DATA SHEET

Product Name: Pool Season Alkalinity Up Chemical Name: Sodium Bicarbonate Synonyms: Baking Soda, Bicarbonate of Soda Pure Substance/preparation: Substance Formula: NaHCO3 Supplier: Alliance Trading Corp. 109 Northpark Blvd, .4 ⁶ Floor Covington, LA 70433 Telephone: 985-892-5521 Fax: 985-892-3769 Exercised Street SECTION II – Hazards Identification SECTION III – Hazards Identification SECTION III – Hazards Identification Chemical Name: Sodium Bicarbonate SECTION VI – Firefighting Measures Fiamable Properties: Noncombustible Flash Point: Not combustible Flash Po		d Company Identification			
Chemical Name: Sodium Bicarbonate Synonyms: Baking Soda, Bicarbonate of Soda Pure Substance/preparation: Substance Formula: NaHCO3 Supplier: Alliance Trading Corp. 109 Northpark Blvd., 4 th Floor Covington, LA 70433 Telephone: 985-892-5521 Fax: 985-892-3769 SECTION II - Hazards Identification Emergency Overview: Not classified as hazardous, white crystalline powder Potential Health Effects Acute Toxicity: No significant health effects actue Toxicity: No significant health effects Acute Toxicity: No show effect anticipated SECTION II – Composition/Ingredient Information Chemical Name: Sodium Bicarbonate CAS No.: 144-55-8 [Weight %: 100 SECTION V – First Aid Measures Eye Contact: Flush eyes with water as a precaution. Get medical attention if irritation develops and persists. Inhalation: Remove person to fresh air. If signs/symptoms continue, get medical attention. Ingestion: Drink plenty of water. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur. SECTION V – Firefighting Measures Flammable Properties: None Explosion Data: Not sensitive to Mechanical Impact or Static Discharge NFPA/HMIS Ratings Legend: Severe = 4 Seroid Severe = 4 Seroid Section VI – ACCIDENTAL RELEASE MEASURES Personal Precautions: Avoid dust formation Methods for Cleaning Up: Sweep up and shovel into suitable containers for disposal. Dispose of in accordance with all applicable national environmental laws and regulations. SECTION VII – Handling and Storage Handling: Use air conveying mechanical systems for bulk transfer to storage. Provide appropriate exhaust ventilation at Jeaces where dust i

SECTION VII – HANDLING & STORAGE

Handling: Use air conveying / mechanical systems for bulk transfer to storage. For manual handling of bulk transfer, use mechanical ventilation to remove airborne dust from railcar, ship or truck. Use approved respiratory protection when ventilation systems are not available. Selection of respirators is based on the dust cloud generation. Keep material out of lakes, streams, ponds and sewer drains.

Avoid eye contact or prolonged skin contact. Avoid breathing dusts. When dissolving, add to water cautiously and with stirring, solutions can get hot. Use good personal hygiene and housekeeping.

Storage: Store in a cool dry area, away from acids. Prolonged storage may cause product to cake from atmospheric moisture.

SECTION VIII – Exposure Controls/Personal Protection

Exposure Guidelines:

This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies. Local nuisance dust standards apply.

Occupational Exposure Controls:

Engineering Measures: Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction

Personal Protective Equipment:

General Information: If the product is used in mixtures, it is recommended that you contact the appropriate protective equipment suppliers. These recommendations apply to the product as supplied. Respiratory Protection: Whenever dust in the worker's breathing zone cannot be controlled with ventilation or other engineering means, workers should wear respirators or dust masks approved by NIOSH/MSHA, EUCEN or compatible organization to protect against airborne dust.

Eye/Face Protection: Safety glasses with side shields

Skin and Body Protection: Wear suitable clothing. Protective shoes or boots.

Hand Protection: Protective gloves.

Hygiene Measures: Handle in accordance with good industrial hygiene and safety practice.

SECTION IX – Physical and Chemical Properties				
Appearance:	Crystalline Powder			
Color:	White			
Physical State:	Solid			
Odor:	Odorless			
Odor Threshold:	Not Applicable			
pH:	8.3 (1% solution) @ 25°C			
Melting Point/Range:	Decomposes			
Freezing Point:	No Information Available			
Boiling Point/Range:	Not Applicable			
Flash Point:	Not Combustible			
Evaporation Rate:	Not Applicable			
Auto-ignition Temperature:	Not Applicable			
Flammable Properties:	Noncombustible			
Vapor Pressure:	Not Applicable			
Vapor Density:	No Information Available			
Density:	0.88 g/cm3 (particle)			
Specific Gravity:	2.22			
Relative Density:	No Information Available			
Bulk Density:	66 lb/cu. Ft.			
Molecular Weight:	84.01			

Water Solubility:	9.0% @ 2				
Percent Volatile:		nation Available			
Partition Coefficier					
Viscosity:		nation Available			
Oxidizing Propertie					
	SECTION	X – Stability and Reactivity			
Stability: Stable					
	id: Excessive Heat				
	I: Except Under Control
