

PGP ULTRA® ROTARY SPRINKLER

This Upgrade of the First-Class PGP is Packed with New Features

The PGP Ultra takes the foundation of the best-selling PGP Rotor and raises the bar with a variety of new features developed over three decades of research, customer feedback, and lab testing. Among the most notable improvements of the PGP Ultra are its non-strippable drive and automatic arc return. These two features work to allow the turret to be turned without causing damage, and return the turret to its original arc regardless of where it is turned. Other advanced features include 34 nozzle options with several radius choices, and a headed slot and set screw. The diversity of the PGP Ultra offers system installers an array of efficient options on any site. For peak efficiency, choose the PGP-04 with an optional pressure-regulated body that reduces incoming pressures of 50-100 PSI to 45 PSI, saving up to 25 percent more water.

PGP ULTRA[®] ROTORS PROVIDE

Unmatched Reliability

Why Choose PGP Ultra?

- Pop-up sprinkler rotates silently then disappears when the job is done
- Waters evenly and efficiently
- Has precise pattern control with no bothersome backsplash onto walkways or buildings
- Whisper-quiet rotation, without impact or clatter
- Patented non-strippable, vandal-proof drive mechanism enables the turret to be turned without causing damage
- The most reliable rotor on the market, the PGP Ultra now has a 5 year warranty

Benefits of PGP Ultra

- Automatic arc return: Returns to the original arc regardless of where the turret is turned
- Patented non-reversing 360° for part and full circle in one model, from 50° to 360°
- Includes an easy-to-install, square top rack of 8 standard nozzles. Optional racks of short-range nozzles for smaller areas are also available
- Available in shrub, 4", and 12" pop-up
