THERMOPLASTIC SPECIALTY SELECTION

6' Swim 'N Lounge

Available in Standard and Cantilever

2' In-Wall Ladder

Available in Cantilever Only

8' Sunledge

Available in Standard and Cantilever

THERMOPLASTIC STEPS FEATURES

1. Standard Pacific Steps are molded from a solid sheet of coextruded Luran®S with an ABS substrate from BASF resulting in a strong, one-piece design, that will never delaminate, splinter, corrode, or puncture.
2. Raised, non-slip tread pattern allows for safe and easy pool entry and exit.
3. The high-impact strength and flexibility of weatherable polymers enables Pacific Steps to withstand the stress of frost and back fill saturation far better than other materials.

Extruded aluminum coping provides an attractive border for poured concrete decking.

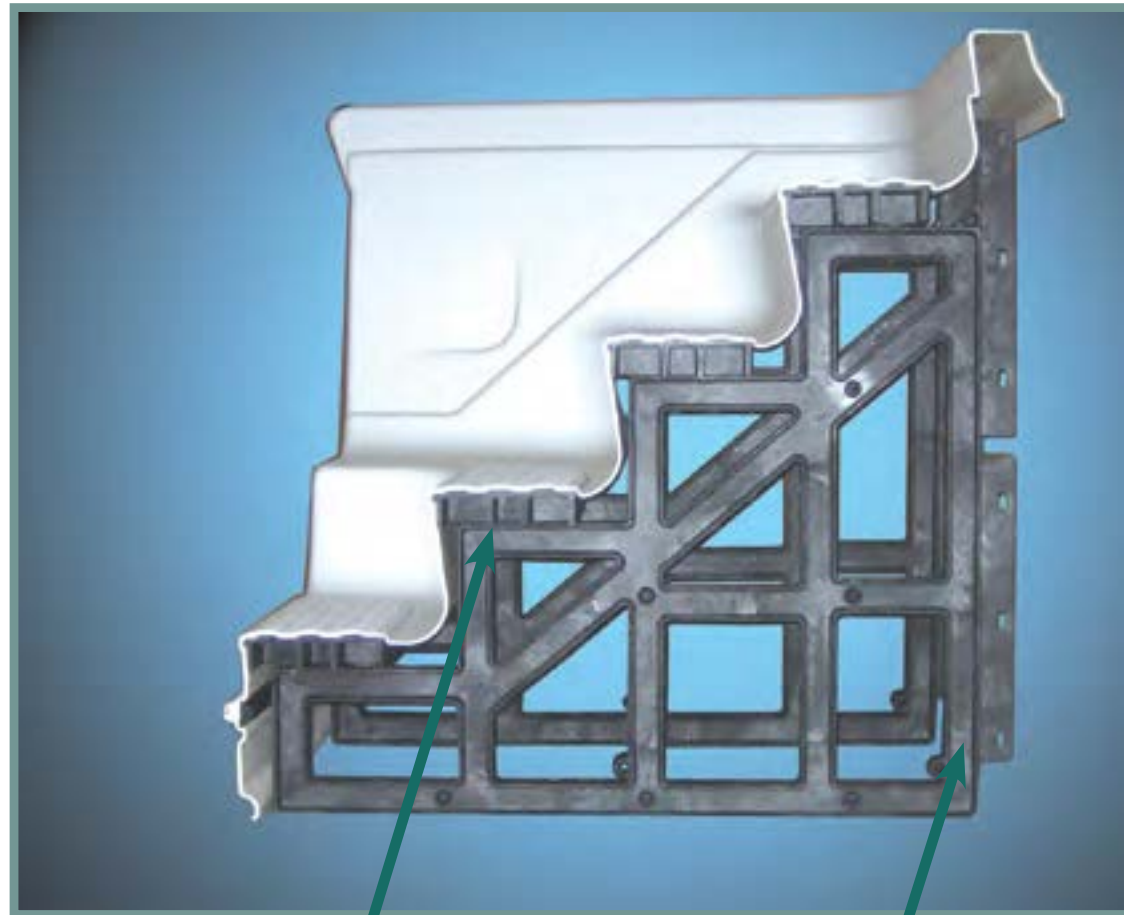

A stylish cantilever edge for poured concrete decking is created with optional styrofoam forms.

Luran®S is a registered trademark of BASF.

THERMOPLASTIC STEP COLLECTION

TES SUPPORT SYSTEM (Total Encapsulated Support)

One-piece molded structural grid system supports the entire tread surface and prevents material fatigue.

Modular bracing allows for optional deck support.

Fort Wayne Pools Thermoplastic Steps utilize the patented TES Support System for optimum tread support and strength.

- All 6' and 8' models come standard with recessed jet locations.
- All models come standard with pre-punched gasket holes for easy alignment.

Acrylic/Fiberglass Step Features

Molded Pole Receivers

Unwavering stability and built-in accuracy for secure support.

Rigidizing Panel

Rigid-Elastic Technology positioned at the base of the step for structural integrity and torsion resistance.

Patented Adjustable Foot

This new patented feature is designed to expedite leveling during installation.

Rigid-Elastic Technology

Thermoplastic honeycombs (Rigid-Elastic Technology) with composite sandwich construction offer optimum elasticity. This equates to greater impact strength and load tolerance.

Rigidizing Tread Support

Rigid-Elastic Technology positioned underneath every tread for unsurpassed support, structural integrity and impact strength.

Optimum Support

Multiple levels of pole supports work in unison to create unrivaled balance and stability.

Weighted Measuring System

An Industrial weighing system that assures a calibrated, consistent distribution of fiberglass/resin material on each and every step.

Labeled Faceplates

Directional labels allow quick, convenient, accurate installation.

Beauty Cap

The final touch for an attractive appearance.

PVC Faceplate w/Durable Neoprene Gasket

The flexible and resilient neoprene gasket comes pre-affixed to the step providing a water-tight seal and bond with the liner and faceplate.

Perfect Match

The 90° cut provides perfect alignment with a smooth finish to ensure the end result is a beautiful step.

Vinyl Over Step Options

WEDDING CAKE STEP

Don't just change your liner, change your lifestyle!

For uninterrupted beauty of your liner pattern, the Wedding Cake Step is a perfect choice.

Wedding Cake Step Features

- The Wedding Cake Step can be used in all vinyl liner pools – polymer, steel, wood, concrete, and fiberglass.
- For uninterrupted beauty of your liner pattern, the Wedding Cake Step is a perfect choice.
- When it's time for a new liner, consider adding a Wedding Cake Step to give your pool fresh style.
- The Wedding Cake Step is a great step for pools with auto covers because the step sits completely under the cover.
- All Wedding Cake Steps are of a molded shell which allows consistent liner installation, and they use a revolutionary clip system to secure the liner to the step for snug fit.
- You'll appreciate the raised tread pattern for a slip-resistant finish.

180° Straight Step Cutaway

Available in eight beautiful models:

- 180° Straight
- 6" Radius Corner
- 90° Corner
- 2' Radius Corner
- 8' 6" Radius
- 9' Radius
- 10" Radius
- 11" Radius

Polymer - Vinyl Over Step Options

Modular Polymer Step

Modular Step System Features

- Vinyl Over Step application
- Totally non-corrosive
- Works with both polymer and steel pools
- Available in straight tread designs for pools 90°, 6" and 2' radius corners in tread length from 4' up
- Available for radius pools with an 8'6", 9' or 10' radius wall
- Offers integrated step and benches
- Utilizes the PVC Step Bead Receiver
- Patent Pending

Durability

Pools and the materials used to build them are not equal. We use only the best materials, top-notch engineering, and innovative manufacturing technology to create pool components of outstanding strength and durability. The modular polymer step will not corrode and assures a structure that is stable, strong and durable.

Non-Corrosive Versatility At Last!

Innovative

The Modular Polymer Step is more than just a swimming pool step. Combine it with a bench or sun-ledge for a customized poolscape that suits your style. It's your place to sit, relax, and cool off on a hot summer day. It's a great spot to keep an eye on the kids. It's the perfect entry way into your backyard paradise.

Vinyl – The Perfect Pool Surface

Our vinyl liners not only provide beauty to your poolscape, but also a wonderful soft, smooth texture to walk, stand, and sit on; and no snagged swimsuits! Designed for durability and longevity, as well as excellent resistance to the effects of pool water,

chemicals and sunlight. They are virtually maintenance free, requiring no replastering or painting and are easy to keep clean. Vinyl is a definite advantage over other pool surfaces.

STEEL – VINYL OVER STEP OPTIONS

STEEL STEPS

Quality

Pools and the materials used to build them are not equal.

We use only the best materials, top-notch engineering, and innovative manufacturing technology to create pool components of outstanding strength and durability. The 14-gauge copper bearing steel steps are coated with a 2.35 oz. zinc galvanization to prevent corrosion and assures a structure that is stable, strong and durable. We want your piece of paradise to last.

Paradise

The Fort Wayne Pools Steel Step is more than just a swimming pool step. Combine the Fort Wayne Pools Steel Step with a bench or sunledge for a customized poolscape that suits your style. It's your place to sit, relax, and cool off on a hot summer day. It's a great spot to keep an eye on the kids. It's the perfect entry way into your backyard paradise.

Beauty

The Fort Wayne Pools Steel Step is more than just a swimming pool step. It's a beautiful part of the pool structure. The vinyl liner literally covers the entire surface of the pool up to the decking, including the steel step, creating a finished, custom look. This versatile step will quickly become the favorite area of your pool. The Fort Wayne Pools Steel Step is available in many standard styles* and can be installed in a variety of positions. Custom styles can be designed to incorporate a bench or sunledge. Put the finishing touch on your poolscape by choosing a liner pattern from our large selection. Ask your dealer for more information.

Limitless Options!

Custom Designs!

BE SMART, PLAY IT SAFE

SAFETY INFORMATION

IMPORTANT: A number of very important items that are essential for the safe use of your pool may not be visible in many of the photographs, either because of perspective or camera angle, or because they were removed for photographic purposes. These items include:

1. Safety ropes, which should remain in place at all times;
2. "No Diving" signs are provided by the manufacturer and should be installed in accordance with instructions included on the coping or liner, where they are clearly visible;
3. An area sign is provided by the manufacturer and must be permanently and conspicuously affixed in the pool area where all users can see it;
4. Necessary means of exit and entry into the pool;
5. Fencing with a self-latching gate, and other barriers that can assist in preventing unsupervised access to the pool by children;
6. Approved drain covers and other devices to protect against suction entrapment;
7. Minimum required inlets and returns to ensure proper water circulation;
8. Appropriate inpool lighting if the pool will be used after dark.

All of these devices should be installed in accordance with the manufacturer's instructions, ANSI/NSPI or ANSI/APSP standards, as well as state and local statutes and codes.

Diving boards and slides require minimum depths and distances and must only be installed and used in strict compliance with the equipment manufacturer's specifications and ANSI/NSPI or ANSI/APSP standards. If the pool is labeled by us as NON-DIVING, then diving equipment may not be installed and any such equipment must be removed before the pool is used.

Smart pool owners always think safety first. They take specific steps to ensure that their family, friends and guests are knowledgeable about the safe and sensible use of their pool. They also:

- ensure that their pool is never used unless there is adequate supervision;
- ensure that their pool is kept in good repair and is not used when there is a missing or broken drain cover or other component;

- ensure that ALL CHILDREN using their pool are supervised constantly;
- that anyone under the influence of alcohol, drugs or stimulants that would impair their abilities or judgement does not use the pool;
- ensure that their pool is protected by appropriate barriers to unsupervised entry including fencing with self-latching gates, covers, alarms, etc.

To assist you, a number of very important items of safety literature are included with each pool. We must insist that you read each item carefully and follow the instructions. These are:

- Pool Owners Safety Handbook
- "Notice" Card
- APSP "Sensible Way" Book
- Vinyl Swimming Pool Liner-Warranty
- "Children Aren't Waterproof" Book
- "No Diving" Labels
- Plaque

Make sure your builder supplies you with all of the safety information that accompanies your pool and installs the enclosed warning stickers and area sign where they can be clearly visible to all who use the pool.

NOTICE: The manufacturer stands behind every product they produced pursuant to those representations which are stated in the written warranties. Your dealer/builder/contractor is an independent business person and not an agent or employee of the manufacturer. The manufacturer cannot and does not accept any responsibility for any representations, statements or contracts made by any dealer/builder/contractor.
