

applications:

LVP's Traditional 45mm Veneer Pavers can be used on walkways, patios and pool decks. Veneer pavers are not intended for vehicular or heavy equipment traffic due to their thinner 45mm profile. They can install over the existing concrete surface or conventionally prepared subsurface.

features:

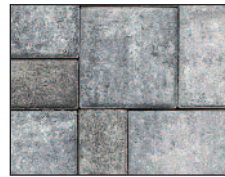

The Traditional upper surface profile is a flat top with domed edges. They can be installed in a number of different patterns and designs. 45mm pavers can be used with Veneer Coping, matching up to the coping's tapered end.

colors available:

Sahara

Stardust

Mirage

Sold as 3 piece combo

dimensions:

5½ x 8¼", 5½ x 5½", 2¾ x 5½" all pavers 45mm thick

1.77 inches
45 mm

standards and composition:

Las Vegas Paver manufactures its concrete pavers with the highest integrity. Pavers have a compressive strength of 8,000 PSI or greater, with a maximum water absorption of 5%.
