

Safe 'n Secure

PROFESSIONAL

Safety Fencing

Safe 'n Secure Fencing is available in 3, 6, 9 and 12-foot sections, with support poles spaced every three feet. It is best to design your fence installation using as many 12 foot sections as possible. The fence height is 48 inches (60 inch fencing is available by special order) and is constructed from black mesh to provide better visibility of the pool. Additional mesh and pole colors are available by special order. One or more fence sections can be easily removed when desired. Standard "gate" openings are formed where two sections come together. Safe 'n Secure Fencing can also be ordered with an optional self-closing and self-latching gate.

Merlin's Safe 'n Secure Fencing features a two year limited warranty.

Your Merlin Safe 'n Secure Fencing Dealer

Secure the perimeter of your swimming pool with professional fencing that's attractive and remarkably easy to use.

Why Merlin is Your Best Choice

The Merlin name is your assurance of a professional product - the best value for your investment to be found anywhere. Our products are your best choice because they are better designed to meet your needs ... better manufactured with better materials to withstand the elements ... and better supported over their lifetime. It's more than a claim; it's a mission that inspires everyone in our company to perform to the highest possible standards. After all, isn't your family and investment worth it?

Versatile. Protective.

Safe 'n Secure Fencing is simply the most versatile and convenient fencing solution available to swimming pool owners who want to add an additional layer of protection around their pools. It's the ultimate in backyard barriers, a removable fence that blocks unwanted entry without obstructing visibility.

Integrated. Ingenious.

Safe n' Secure Fencing is an integrated system of 12' x 4' panels locked together by special patent pending spring-lock hardware. Our special spring locks allow the fence sections to be pad locked together. Each panel is constructed of weather-resistant, heat-sealed black mesh supported by aluminum quad-core poles. Individual panels - or even the entire fence - can be easily removed by an adult when needed. An optional self-closing and self-latching gate may be ordered with your fence.

Optional Gate Shown.

Safe 'n Secure Fencing goes up and comes down easily by any adult.

Merlin's Safe n' Secure Fencing is attractive and unobtrusive. Its design combines practical protection with a dean look.

Merlin's Safe n' Secure Fencing can be designed to fit all types of pools.

Merlin's Safe n' Secure Fencing features weather-resistant, heat-sealed black mesh fabric and sewn top and bottom hems.

Special spring-lock hardware latches each section to the next. Sections can be pad locked together for added safety. Pad locks not included.

When your fence is not in use, flush-fit caps secure your anchor sleeves from dirt and debris.

Merlin's Safe n' Secure Fencing uses superior strength aluminum quad-core poles.

Although nothing can replace adult supervision, Safe 'n Secure Fencing adds an extra layer of protection from curious minds.
