

**3/8"**  
Low Profile

A high-performance, low-kickback chain well suited for commercial cutters, arborists and occasional users.

## SPECIFICATIONS

Chain Pitch

Cutter Style

**Chamfer Chisel™**

Chain Gauge

**.050"**  
(1.3mm)

Kickback Reduction

**Bumper Drive Link**

Recommended Bar Length

**up to 18"**  
(45 cm)

Recommended Saw Sizes

**Gasoline-powered up to 2.5 cu. in. (42 cc or less)**

Recommended User

**Consumer**

**Commercial**

## FEATURES

**Advanced grind geometry**

**Bumper drive link**

## BENEFITS

- Enhanced grind geometry significantly improves out-of-box sharpness with substantial speed improvement in boring and bias (undercut) modes.

- Reduces kickback without sacrificing performance
- Meets ANSI B175.1 standards for low-kickback saw chain

- Twin cutting corners offer outstanding performance, durability and easy maintenance.

- Tie straps help keep oil where it's needed – on the chain

- Oil holes in the drive links help carry oil around the full length of the guide bar groove.

- Chassis design increases operators' comfort level by reducing vibration at the handles.

## SHARPENING NOTES

\* When using an OREGON® file guide, ALWAYS hold it level, 0°, flat on the Top Plate

## WARNING

The saw chain in this package is low kickback saw chain. It met the reduced kickback requirements of ANSI B175.1 and CSA Z62.3 when tested on a representative sample of chain saws. Its safety features significantly reduce the hazard of kickback while maintaining high cutting performance.

ALL CUTTING CHAINS CAN KICK BACK, which may result in severe personal injury to the chain saw operator or bystanders. Operate your chain saw safely. Read all warnings in your chain saw operator's manual.

## SHARPENING & GRINDING TOOL PART NUMBERS
