

SAHARA RTR

Hybrid construction for outstanding rigidity

Durable and supportive, the uprights are coated with a protective finish.

Easy to assemble

Bottom rails come with exterior shields, giving them strength and style.

Your above ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely, you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations. © Copyright 2014
